

The Sustainable Living Committee / Climate Action Team presents a  
**FREE Showing of**

*"The diversity  
in our seed  
stocks is as  
endangered..."*

*...as a  
panda or a  
polar bear  
right now."*

**Saturday July 15, 2017, at 7:00 PM**

**Preceded by a PLANT-STRONG POTLUCK at 6:00 PM**

Please bring a dish to serve about 8 people. We are not assigning categories. Bring your favorite potluck dish — either appetizer, salad, main dish or dessert. We understand it can be difficult to think outside the box and eliminate animal products from your food preparation, but believe us when we say it is hundreds of times better for the Earth and YOUR HEALTH! Give it a try.\*

Vegan recipes abound on the internet. Also, some recipes are available at our uuse.org website under the Sustainability tab. The easiest thing to do is think of one of your favorite dishes and google it, followed by the word “vegan.” Please don’t use meat, dairy or eggs in your dish.

To help us plan on table setup, please RSVP to Paul at [pcocuzzo@gmail.com](mailto:pcocuzzo@gmail.com)

To view the movie trailer go to <http://www.seedthemovie.com/trailer>

\*Just ask someone who has attended a previous plant-based potluck, and they will tell you how delicious the food was!
